

Sherman County School District
Facilities Planning Committee
March 14, 2013

Anticipatory Set/Conversation Focus

This Committee is Setting the Vision of our Educational Community for 50+ Years

If you had a kindergarten student walking into this new configuration/building for the first time...What would you want them to experience?

Imagine you have a high school senior walking out the doors on graduation ...What would you want them to have experienced?

50 years from now...
What do you want the educational facilities to look like and provide to our community and students?
